

My Problem-Solving Journal

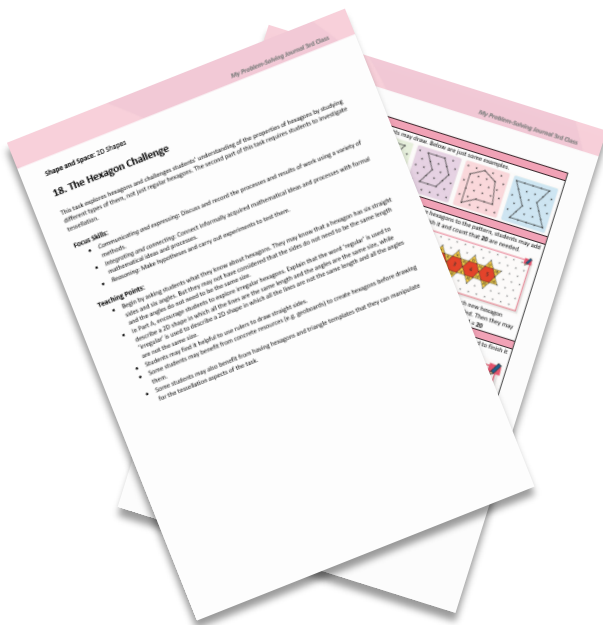

in Three Simple Steps

1. Select a Problem

Use the contents page to find a problem that matches the topic you are working on with your class.

If you are using *Planet Maths* or *Busy at Maths*, there are handy guides online to help you find problems to match the chapters in your book.

Contents		
Topic	Task	Page
Place Value	1. Pick a Postcode	4
Operations - Addition	2. Race to 100	8
Operations - Subtraction	3. Subtraction Sleuth	10
Operations - Multiplication 1	4. The School Garden	12
Operations - Multiplication 2	5. Pocket Money	14
Operations - Multiplication 3	6. Party Bags	16
Operations - Division 1	7. The School Concert	18
Operations - Division 2	8. A Day on the Farm	20
Operations - Division 3	9. Rocket Race	22
Operations - Division 4	10. Trading Cards	24
Fractions 1	11. The Lost Library	26
Fractions 2	12. Money Matters	28
Fractions 3	13. Fraction Pictures	30
Decimals	14. Dizzy Decimals	32
Algebra	15. Dizzy Decimals	34
Number Patterns and Sequences	16. Puzzling Patterns	36
Shape and Space	17. Baggie Dragons	38
2D Shapes	18. The Hexagon Challenge	40
Symmetry	19. Cube Creations	42
Universal Angles	20. The Symmetrical Shop	44
Measurements	21. Forecasting Flags	46
Area	22. Olympic Long Jump	48
Weight	23. Room to Improve	50
Capacity	24. Baking Mix-Up	52
Time 1	25. The Wren's Den	54
Time 2	26. A Day at the Zoo	56
Money	27. Delivering Post	58
Statistics	28. Coin Combinations	60
Reasoning and Interpreting Data	29. The School Trip	62
Chance	30. Lucky Dip	64

2. Find the Teaching Notes

Locate the Teaching Notes to match the problem. They include a concise explanation of the problem, prompts to support children, and solutions.

Sample Teaching Notes are available on Folens.ie. The full set of Teaching Notes are available on FolensOnline.ie for schools who have adopted the programme.

3. Work on the Problem

Have your students work on the problem in mixed-ability pairs or groups. Use the Teaching Notes to guide discussion and scaffold children as they work.
