

Fast Forward

High-interest, low-levelled literacy intervention

Fast Forward has been developed for students in the middle and upper years who are experiencing difficulties with literacy. These students may be disengaged, from non-English speaking backgrounds, experiencing learning difficulties or simply require further reading practice.

Instructional/Guided Reading

Fast Forward aims to increase reading ability and confidence by appealing to the student's interest level and reading level. The highly visual and engaging books are perfect for instructional/guided reading sessions, featuring relevant and topical themes to ensure reading success.

a non-fiction text

Independent Reading

The **Fast Forward Independent Texts** reinforce the skills and knowledge students have gained from instructional/guided reading sessions. The non-fiction books are in a magazine layout, enabling students to navigate non-fiction features, such as glossaries, indexes, diagrams, graphs and maps, with ease.

Audio

Available for all Independent/Guided Reading texts, **Fast Forward's** audio-assisted reading is recommended after your students have read the text. Students can listen to the audio reading and practice reading the text along with the recorded voice.

The audio files provide students with a model of fluent reading whereby they can learn how a reader's voice, using fluency, phrasing and expression, can help written text make sense.

Student Benefits

Listening

The **Fast Forward** audio provides excellent models of fluent reading. After reading the text, the student, or group of students, can listen to the audio and practice reading along with the voice.

Speaking

Teachers can assess students' accuracy and fluency using the Reading Record Assessment Accuracy and Fluency Measure in the Teacher's Guides. Fluency, phrasing and expression are modelled on the audio to assist students to understand how a reader's voice can help written text make sense.

Writing

Fast Forward exposes students to a range of text types, which they can use as models for their own writing. Text types featured include narrative, report, recount, procedure, explanation, exposition, description, discussion and response.

Teacher Support

An essential component in effectively implementing **Fast Forward**, the comprehensive Teacher's Guides have been written to ensure everyone, from teachers to trained specialists, can implement the program.

Each Teacher's Guide features:

- Implementation recommendations
- Teaching notes for before, during and after reading
- Activity sheets
- Curriculum links
- Assessment sheets
- Graphing and planning pro formas.

University of Melbourne's
research

“

It is well known that reading material for students who have difficulty reading is often un motivating ... **Fast Forward** is a welcome and very commendable break from what dominates in the market for such readers.

“

We frequently utilise both the Independent and Guided Reading **Fast Forward** texts ... and are thrilled at the level of engagement that our special needs students have. Each title has a free audio file and because it is non-visual, the student can easily follow along with the written text without distraction. The funny sounds that let the student know when to turn the page is a cute and quirky addition that students love. The mix of fiction and non-fiction titles is a perfect blend to capture and sustain the interest and confidence that comes with reading. Thank you for a beautiful resource that is an essential part of our library.
